

Ivry-sur-le-Lac, June 18, 2018

Dear citizens,

We are pleased to announce that the municipality of Ivry-sur-le-Lac will be collecting organic waste.

By keeping organic waste out of landfill sites, Ivry-sur-le-Lac is contributing directly to the reduction of greenhouse gases and is helping to transform organic waste into a valuable resource: compost.

Together with your brown bin, you will find:

- A kitchen mini-bin
- A guide to organic waste collection
- A sticker to place on your kitchen mini-bin
- A list detailing the items accepted in each of your bins and at the ecocentre

From **June 28 to September 13**, your brown bins will be collected **every Thursday**. After September 13 until mid May, the collection will take place once every two weeks, on the same day recyclables (green bin) are collected.

We have organized an information session to guide you and to answer all your questions about composting. It will be held on **June 22 at 7:00 pm at Place Lagny, 2 rue Saint-Louis, Sainte-Agathe-des-Monts**. In addition to teaching you all you need to know about composting, we will be presenting some tips and tricks.

What's more, in August, eco-advisors will be travelling around the region to answer your questions about composting. So, don't be surprised if someone knocks on your door offering you information on our organic waste collections!

If you have any other questions, please do not hesitate to contact us at 819-321-2332 or at [info@ivry-sur-le-lac.qc.ca](mailto:info@ivry-sur-le-lac.qc.ca).

With kind regards,

General Manager  
Secretary-Treasurer

Josiane Alarie
