

WASTE DISPOSAL

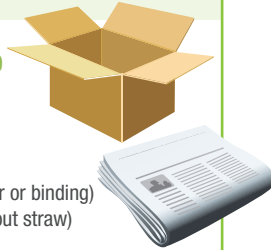

GREEN BIN

RECYCLABLE MATERIALS

CLEAN PAPER AND CARDBOARD

- Newspapers, magazines and flyers
- Paper sheets and envelopes
- Paper bags
- Cardboard boxes and packaging
- Directories and books (without cover or binding)
- Milk, cream and juice cartons (without straw)

PLASTICS

- All containers and lids with numbers:
- All bags, flexible packaging and plastic films (group together in a transparent bag and tie well)

METAL

- Tins
- Cans
- Aluminum plates
- Coat hangers (group in bundles)
- Pipes and pots

GLASS

- All glass bottles and containers, in any color

REFUSED MATERIALS

- Soiled paper or cardboard
- Plastics without a number or with number
- Toys, caps
- Paint cans
- Propane bottles, aerosol cans and fire extinguishers
- Tools
- Windows, mirrors, light bulbs and Pyrex glass
- Organic wastes
- Etc.

TIPS

- Rinse containers to prevent odors and protect workers' health.
- Put materials loosely into the bin. They must not be in bags.
- You need more space in your green bin? Compact containers to maximize space.

BLACK BIN

REFUSED MATERIALS

According to regulation, the following materials are prohibited in the black bin:

- Medicines and biomedical wastes
- Recyclable materials (e.g., paper and cardboard, plastic containers, glass and metal)
- Household hazardous wastes (e.g., paints, batteries, oils, pesticides, propane bottles)
- Construction and demolition materials (wood, gypsum board...)
- Electrical, electronic appliances and computers
- Green wastes (e.g. dead leaves, grass clippings and Christmas trees)
- Tires and car batteries
- Furniture and mattresses

BROWN BIN

ORGANIC MATERIAL

YOUR MUNICIPALITY IS PLANNING THE ARRIVAL OF YOUR BROWN BIN (ORGANIC MATERIAL).

Why collect organic material?

The Québec Policy on Residual Materials (Politique québécoise de gestion des matières résiduelles) seeks to completely eliminate by 2020 the disposal of organic material in waste burial sites.

The brown bin is complementary to domestic composting. Everything not placed in your domestic composter goes into the brown bin, including meat and meat bones, fowl, fish, dairy products, facial tissues and small animal litter.

It is important, however, that we continue all our efforts in household composting and in grass and leaf recycling. The least polluting waste is the waste we have not created.

RULES TO BE FOLLOWED

GREEN BIN

Recyclables only. Bring excess to the ecocentre. **Green bins containing non-accepted materials will not be emptied and any contents placed outside the bins will not be collected.**

BLACK BIN

Household wastes only. **Black bins with refused materials will be not emptied and wastes next to the black bins will not be collected.**

ADVICES

- The black bin should be considered as last option.
- The weight of materials placed in the black bin determines the bill to be paid for landfill.
- The heavier it is, the higher the collective bill!

WHEN

Place the bins at the roadside the evening before collection and remove after the collection is complete.

HOW TO PLACE YOUR BINS

Recycling and waste bins must be placed side by side, with a minimum space of 100 cm around each bin, handles and wheels towards the house so that nothing prevents access for mechanized arm.

IN WINTER

Completely remove snow and ice from top and sides of bins so that they are easily accessible. **Bins covered with snow or hard to reach will not be emptied.**
