INSPECTIONS OF RIPARIAN ZONES

Starting June 1 and throughout the summer, the Municipality will inspect riparian zones to assess the ecological and regulatory compliance of the vegetation bordering the lakes. The goal is to protect aquatic ecosystems by ensuring there are no illegal structures and that the minimum width is maintained.

You must ensure that, for any work carried out in the riparian zone or on the shoreline, you have obtained all necessary permits or, if applicable, written confirmation that the proposed work does not require authorization from the MELCC. This information must be provided to the municipality without delay before work begins.

NATIONAL DROWNING PREVENTION WEEK JULY 19-25 19 2026

Be an ambassador for National Drowning Prevention Week.

The Lifesaving Society is proud to launch National Drowning Prevention Week (NDPW).

This year, we're experiencing an exceptional situation that could change the way we enjoy our bodies of water this summer. In the run-up to this period, which we hope will be warm and sunny, it's important to reiterate the various prevention messages.

The theme of the 33rd edition of SNPN will be Safe Together. By adopting and promoting safe behaviours, and by spreading prevention messages, everyone can help promote safe interactions with water and thus reduce the number of drownings in Quebec.

Become an ambassador for National Drowning Prevention Week by completing the membership form! **formulaire d'adhésion!**

2026 COMMEMORATIVE THEME : 75TH BIRTHDAY OF GUY LAFLEUR

For the 2026 edition of Quebec's National Holiday, the commemorative theme honors the 75th anniversary of the birth of Guy Lafleur, a prominent figure in our collective memory and a legend of Quebec hockey.

This choice is consistent with the recent adoption of the Act Recognizing Ice Hockey as Quebec's National Sport. It highlights the exceptional contribution of an athlete who made history through his talent, charisma, and influence.

With his agile and graceful skating, thunderous shot, and phenomenal speed of execution, Guy Lafleur remains one of the most spectacular players Quebec has ever known.

In Quebec's history, Guy Lafleur stands as a model of success, following in the footsteps of Maurice Richard and Jean Béliveau. He was also a model of resilience and determination, thanks to his return to the National Hockey League at the age of 37.

Throughout his career and into retirement, he has been an outstanding ambassador for his sport. But more than that, thanks to his longstanding presence in the media and his personal qualities, Quebecers have come to regard him as a member of their own families.
